

## **UPDATE**

### **CITE PROGRAMME ACCREDITATION**

The colleges are awaiting the reports on the various programmes from the University Council of Jamaica (UCJ). At a meeting with the UCJ on January 26 we were promised the Primary Education report by February 6, the Early Childhood Education by the end of February and the Secondary Education report by the end of March.

Once these are received we will respond to them. A final report will then be prepared by a sub-committee of the UCJ. This will then be taken to the UCJ Board where a final decision will be made and later disseminated to the colleges.
